INDEX	537
-------	-----

America In Our Time:

"It simply gets right, without great fuss, the detail and proportion of things like the civil rights movement, student unrest, the stages of our Vietnam engagement."

—Garry Wills, *The New York Review of Books*

"A critique so stimulating and compelling that I can only say read it."—Richard R. Lingeman, *The New York Times*

"Something has changed the world; and it has become very much the point to describe it. That is the work at which Hodgson has gone about here; and his way of going about it is an admirable one indeed."

—Murray Kempton, front page, *The New York Times Book Review*

"Hodgson brings to the task an expansive vision, a first-rate command of work in a variety of fields (particularly the social sciences), a grasp of the complexities and paradoxes of American life, and a critical sympathy for this subject."

—Paul Starr, *The New Republic*
